

CIHR Summer Program in Aging (SPA) 2021– apply by February 25

The CIHR Institute of Aging has partnered with the McMaster Institute for Research on Aging (MIRA) to host an interactive training event: **Longitudinal Studies on Aging: Understanding Health Span and Longevity**. This year's CIHR-IA Summer Program in Aging (SPA) will run virtually over six sessions between May 2-14, 2021. SPA will include interactive workshops, seminars, networking with leaders in the field, and team-building activities.

The CIHR Institute of Aging has partnered with the McMaster Institute for Research on Aging (MIRA) to host an interactive training event:

A unique, interactive training program, SPA will be offered virtually over six sessions between May 2-14, 2021. The program includes workshops, seminars and team-building activities.

Graduate students and postdoctoral fellows either working with or interested in learning more about research related to the area of longitudinal studies in aging are encouraged to apply. Trainees will have the opportunity to participate in advanced training that crosses disciplines and brings together trainees, researchers, and members of the public and private sector from Canada and abroad.

The program will feature internationally renowned guest speakers, and networking opportunities will be offered throughout the week. The program is expected to be launched in December 2020 on CIHR's ResearchNet. More information will be available in the coming weeks.
